SYNTHETIC POWER STEERING FLUID™

Product # 57154

Top Tier Ultra Premium Synthetic Fluid Formulated to Provide Maximum Performance

THE PROBLEM:

Over time, the active and protective properties of power steering fluid breaks down and the system needs to be flushed and replaced with new fluid to ensure continued safe and proper operation.

THE SOLUTION:

PROTEX by BARDHAHL® Synthetic Power Steering Fluid™

is blended from synthetic PAO and Ester base oils with premium additive ingredients that provide wear, rust, corrosion and anti-foam protection for power steering systems. The synthetic base stocks used in the formula give it outstanding low temperature fluidity for smooth and easy power steering operation, even at extremely low temperatures. It also contains a seal conditioner to maintain seal pliability and decrease the potential for leaks, detergents to reduce deposits in the pump, valves and steering rack and provides superior oxidation protection from the engine's high temperatures. This fluid is recommended for use in domestic and imported vehicles sold in North America where Top Tier red power steering fluid is required.

THE BENEFITS:

- ⇒ Top Tier Synthetic PAO and Ester based oils
- ⇒ Superior wear protection for smooth quiet operation
- ⇒ Excellent thermal and oxidation stability
- ⇒ Protects against rust and corrosion
- ⇒ Contains seal conditioner to prevent leaks
- ⇒ Resists foaming and enhances low temperature performance
