

# FUEL INDUCTION AIR INTAKE CLEANER™ (F-I-A-I-C)

Product #94060

**Removes Stubborn Carbon Deposits from the Air Intake and Induction System**

## THE PROBLEM:

Fuel system deposits that build up in the manifold, intake valves and combustion chamber can cause poor starting, rough idling and hesitation when accelerating. This results in reduced fuel economy and increased octane requirement to maintain proper operating performance.

## THE SOLUTION:

**PROTEX by BARDHAHL® Fuel Induction Air Intake Cleaner™ (F-I-A-I-C)** cleans the fuel induction system, including the plenum, manifold, intake valves and combustion chamber and removes severe deposits. The solution also reduces the octane requirement and need for premium grade fuel, while still restoring power and performance. Formulation is compatible with both gasoline and ethanol blends.

## THE BENEFITS:

- ⇒ Formulated with PEA (Poly Ether Amine) fuel additive chemistry
- ⇒ Cleans the plenum, intake valves and combustion chamber
- ⇒ Improves fuel economy and enhances performance
- ⇒ Restores drivability by eliminating hard starting, rough idling and hesitation
- ⇒ Reduces vehicle octane requirement

## DIRECTIONS:

Apply the solution through the fuel rail with a pressurized canister system or use an 'S' Tool to apply the solution directly to the intake manifold. Conduct the service every 15,000 miles or as recommended by a Technician. Dispose of any used or unused solution and the container in accordance with local, state and federal regulations..

## PRODUCT SPECIFICATIONS:

Product #	94060
UPC Code	0 76906 94060 3
Size	11 oz (325 ml)
Case Pack (Qty / Wt)	12 / 10 lbs
Case UPC	30076906940604
Color	Purple
Specific Gravity	0.88
Flash Point	>25°F / >-4°C
