

PRODUCT INFO

BRAKE ANTI-SQUEAL™

Product # 94160

Lubricates and Eliminates Noise from Disc Brakes

THE PROBLEM:

Over time, disc brakes will often develop squeaks and squeals during light braking due to the vibration of the pads and the shims.

THE SOLUTION:

PROTEX by BARDHAHL® Brake Anti-Squeal™ is a quick and convenient solution to eliminate typical brake pad noise. This solution reduces the vibration of the pads and shims to eradicate the squeal that often occurs during stop and go driving.

THE BENEFITS:

- ⇒ Reduces brake noise during stop and go driving
- ⇒ Reduces brake dust accumulation on the pad
- ⇒ Improves pad and rotor life

DIRECTIONS:

Clean brake pads with PROTEX by BARDHAHL® Brake Parts Cleaner™ # 94156 and then apply this solution sparingly, evenly and thoroughly to the pad surface. When the pad is dry, apply a second coat to ensure proper coverage. Let dry 15 minutes. Test brakes before driving. Use whenever a brake service is being done or as recommended by a Technician. Dispose of any used or unused solution and container in accordance with the local, state and federal regulations.

PRODUCT SPECIFICATIONS:

Product #	94160
Size	1 oz (30 ml)
Color	Black
Specific Gravity	0.84
Flash Point	>50° F / >10° C
